

# “The Selection, Installation, and Inspection of Coating Systems for Buried Pipeline”

## A Three and One-half Day Course

April 2-5, 2012

The new course is for corrosion techs, inspectors, field crews, blasters, and coating applicators for buried pipeline. The course includes:

- Factors that promote the underground corrosion of buried pipeline
- Trench Warfare: the challenges of the underground service environment
- Pipeline Coating Systems: the first coating systems used, the development of new systems, the best systems of today
- Surface preparation of buried pipeline in the field
- Methods of application for coating systems at the mill and in the field
- Pipeline joint and repair materials
- Common pipeline coating failures
- Hands-on power tool cleaning and abrasive blast cleaning
- Hands-on coatings instrument use
- Hands-on airless application

The author of the pipeline course is Mr. E. Bud Senkowski, P.E. Mr. Senkowski is a senior consultant for KTA-Tator, Inc., and has over 40 years experience with coatings systems engineering and testing. Mr. Senkowski has spent a significant portion of his career in the specification and testing of pipeline coating materials and is a past Chairman of ASTM Sub-committee G03.06 on Pipeline Coating Tests.

When: April 2-5, 2012

Where: KTA Corporate Headquarters,  
115 Technology Drive, Pittsburgh, PA 15275

Cost: \$675 in advance, \$725 if billed. Special discounts available for 4 or more attending the same training. Cost includes the course manual, a daily continental breakfast and full lunch. Hotel discounts available through KTA.
